

Outdoor Environmental Noise Measurement Kit

Features

- Weatherproof case and outdoor microphone
- Sound level meter and Calibrator
- 12 day battery or external power
- All measurements made simultaneously
- Audio recording
- All parts & software included

Applications

- Environmental noise surveys
- Community noise assessments
- Construction and demolition sites
- Factory and industrial site boundary noise
- Road traffic and other transport noise

Overview

The WPK Outdoor Noise Measurement Kits are designed for outdoor applications, where a meter needs to be left unattended in poor weather conditions to monitor for up to a week:

These noise measurement kits include a Sound Level Meter that was designed specifically for environmental noise measurement. The meter meets the sound level meter standards to Class 1 and makes all the measurements required by most such surveys, including the periodic LAeq and the statistical Ln parameters (L10, L90, etc).

The meter makes automatic repeating measurements, providing the tables of periodic results typically needed for this type of survey.

Our Recommendation

For most environmental noise surveys we recommend the **WPK1710** Outdoor Kit, which is the lower cost version of the Class 1 kits. The meter in this kit includes the environmental noise parameters (Leq, Ln, etc), automatic timed measurements and audio recording.

For an overview of the other meters available please see the **Which Meter** tab.

Audio Recording

The sound level meter can be set to record the audio when certain conditions are met (a threshold level for example). Listening to a recording makes it easier to identify to source of the noise - road traffic? people talking? machinery?

Outdoor Environmental Noise Measurement Kit

Specifications

Noise Measurements	See Optimus Environmental Specifications
Connectors	Microphone input from MK:172 Outdoor Microphone External Power Connector
External power	12-18v DC
Dimensions	465 x 180 x 355 mm
Weight	14.1 kg / 31 lbs including: 2 x batteries, charger & outdoor microphone
